

Product name: POLYVEST® 110

# SAFETY DATA SHEET

According to Regulation (EC) No. 1907/2006 (REACH) Article 31, Annex II as amended by Commission Regulation (EU) 2020/878

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name:**  
POLYVEST® 110

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Identified uses:** Component of: adhesive, impregnation agent, paints and lacquers, elastomers, coating materials, inks, sealants, casting mixture, insulating materials, moulding mixture, rubber formulae, plastics  
Component of additives and auxiliaries in the above-mentioned industries.  
Raw material for further chemical syntheses

**Uses advised against:** Not determined.

### 1.3 Details of the supplier of the safety data sheet

Company Name : Evonik Operations GmbH  
Rellinghauser Str. 1-11  
45128 Essen  
Germany  
Telephone : +49 2365 49 9272  
E-mail : MSDSInfo-COHP@evonik.com

### 1.4 Emergency telephone number:

24-Hour Health : +49 2365 49 2232  
Emergency

Emergency medical information: 8am-10pm (seven days) contact National Poisons Information Centre, Beaumont Hospital, Dublin 9 DOV2NO, Ireland.  
Telephone Number: +353 (0)1 809 2166

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

The product has not been classified as hazardous according to the legislation in force.

**Classification according to Regulation (EC) No 1272/2008 as amended.**

Not classified

**Product name: POLYVEST® 110**

**2.2 Label Elements** Not applicable  
**2.3 Other hazards**

**PBT/vPvB data**

A PBT/vPvB evaluation is not available, since a chemical safety evaluation is not required / has not been carried out.

**Endocrine disrupting properties-Toxicity**

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

**Endocrine disrupting properties-Ecotoxicity**

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

**SECTION 3: Composition/information on ingredients**

**3.1 Substances**  
**General information:** polybutadiene, oligomeric

**REACH Registration No.:**

CLP: Regulation No. 1272/2008.

**SECTION 4: First aid measures****4.1 Description of first aid measures**

|                                                      |                                                                                                                                                                                              |
|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General information:</b>                          | Pay attention to self-protection. Move out of dangerous area. Immediately remove contaminated clothing. Keep warm, position comfortably, and cover well. Do not leave the victim unattended. |
| <b>Inhalation:</b>                                   | Move to fresh air. If the casualty is not breathing: Perform mouth-to-mouth resuscitation, notify emergency physician immediately.                                                           |
| <b>Skin Contact:</b>                                 | Wash off with plenty of water and soap and rub in skin-cream. If skin irritation persists, call a physician.                                                                                 |
| <b>Eye contact:</b>                                  | With eye held open, thoroughly rinse immediately with plenty of water for at least 10 minutes. Consult an ophthalmologist immediately if the symptoms persist.                               |
| <b>Ingestion:</b>                                    | Rinse mouth. Do not induce vomiting and seek medical advice immediately.                                                                                                                     |
| <b>Personal Protection for First-aid Responders:</b> | No data available.                                                                                                                                                                           |

Product name: POLYVEST® 110

#### 4.2 Most important symptoms and effects, both acute and delayed

**Symptoms:** No experiences of acute or chronic damages in humans have been made as yet.

**Hazards:** No data available.

#### 4.3 Indication of immediate medical attention and special treatment needed

**Treatment:** After accidental absorption in the body, the pathology and clinical findings are dependent on the kinetics of the substance (quantity of absorbed substance, the absorption time, and the effectiveness of early elimination measures (first aid)/ excretion - metabolism). Continue with first aid measures. Depending on the pathology and clinical findings, patient monitoring and symptomatic treatment are necessary.

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

**Suitable extinguishing media:** Water spray, foam, dry powder or carbon dioxide.

**Unsuitable extinguishing media:** High volume water jet.

#### 5.2 Special hazards arising from the substance or mixture:

May be released in case of fire: carbon monoxide, carbon dioxide. Under certain conditions of combustion traces of other toxic substances cannot be excluded

#### 5.3 Advice for firefighters

**Special fire fighting procedures:** No data available.

**Special protective equipment for fire-fighters:** Have ready/wear respiratory protection equipment.

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures:

Avoid contact with skin and eyes. Always wash hands before breaks and at the end of work.

##### 6.1.1 For non-emergency personnel:

No data available.

##### 6.1.2 For emergency responders:

No data available.

#### 6.2 Environmental Precautions:

Do not allow to be introduced into sewage water, soil, waterbodies, ground water, surface waters.

#### 6.3 Methods and material for containment and cleaning up:

Take up mechanically or with a non-combustible absorbent material. Fill into marked, sealable containers. To be disposed of in compliance with existing regulations. Suitable absorbents: oil absorbent

#### 6.4 Reference to other sections:

For personal protection see section 8.

Product name: POLYVEST® 110

## SECTION 7: Handling and storage

### 7.1 Precautions for safe handling

|                             |                                                                                                                    |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------|
| Technical measures:         | No data available.                                                                                                 |
| Local/Total ventilation:    | No data available.                                                                                                 |
| Safe handling advice:       | recommended: Handle under inert gas. Do not breathe vapours or spray mist. Provide good ventilation or extraction. |
| Contact avoidance measures: | No data available.                                                                                                 |

### 7.2 Conditions for safe storage, including any incompatibilities

|                           |                                                                                            |
|---------------------------|--------------------------------------------------------------------------------------------|
| Safe storage conditions:  | Keep container tightly closed. Suitable container material:<br>Mild steel Stainless steel. |
| Safe packaging materials: | No data available.                                                                         |

|                          |                                                                                         |
|--------------------------|-----------------------------------------------------------------------------------------|
| 7.3 Specific end use(s): | We are unaware of any specific end uses which go beyond the data reported in Section 1. |
|--------------------------|-----------------------------------------------------------------------------------------|

## SECTION 8: Exposure controls/personal protection

### 8.1 Control Parameters

#### Occupational Exposure Limits

None of the components have assigned exposure limits.

#### Biological Limit Values

No biological exposure limits noted for the ingredient(s).

### 8.2 Exposure controls

|                                   |                    |
|-----------------------------------|--------------------|
| Appropriate Engineering Controls: | No data available. |
|-----------------------------------|--------------------|

#### Individual protection measures, such as personal protective equipment (PPE)

|                           |                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection:      | Safety glasses with side shields                                                                                                                                                                                                                                                                                                                                                                                                     |
| Hand Protection:          | Material: Nitrile rubber.<br>Break-through time: > 480 min<br>Glove thickness: 0,1 mm<br>Additional Information: Examples of suitable gloves are those made by the company Kächele-Cama Latex GmbH, Am Kreuzacker 9, D-36124 Eichenzell, e-mail <a href="mailto:vertrieb@kcl.de">vertrieb@kcl.de</a> , with subsequent specification (test according to EN374); specific workplace conditions must be separately taken into account. |
| Skin and Body Protection: | No data available.                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Respiratory Protection:   | In case of dusts/vapours/aerosols being formed or if the limit values like TLV are exceeded: use respiratory equipment with suitable filter or wear a self contained respiratory apparatus                                                                                                                                                                                                                                           |

Product name: POLYVEST® 110

**Hygiene measures:** Avoid contact with skin and eyes. Immediately remove contaminated clothing. Smoking, eating and drinking should be prohibited in the application area. Wash face and/or hands before break and end of work.

**Environmental Controls:** No data available.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

**Physical state:** liquid  
**Form:** liquid  
**Color:** colorless to brown

**Odor:** slightly specific

**Odor Threshold:** No data available., Not required by safety or application considerations.

**Freezing point:** Approximate  
 -55 °C

**Boiling Point:** Not applicable Decomposition

**Flammability:** Not applicable liquid

#### Upper/lower limit on flammability or explosive limits

**Explosive limit - upper:** see Explosiveness

**Explosive limit - lower:** see Explosiveness

**Flash Point:** Approximate  
 180 °C  
 Method: DIN 51758 (Pensky-Martens (A and B Closed Cup))

**Auto-ignition temperature:** Approximate  
 360 °C  
 Method: DIN 51794

**Decomposition Temperature:** 250 - 300 °C

**pH:** Not applicable

#### Viscosity

**Dynamic viscosity:** 700 - 860 mPa.s

**Kinematic viscosity:** No data available. Not required by safety or application considerations.

#### Solubility(ies)

**Solubility in Water:** < 0,01 g/l (20 °C)

**Partition coefficient (n-octanol/water):** Not determined. Not required by safety or application considerations.

**Vapor pressure:** < 0,01 hPa (20 °C)

**Relative density:** 0,91 (20 °C)  
 Method: DIN 51757

**Density:** No data available.

**Bulk density:** Not applicable

**Relative vapor density:** No data available.

#### Particle characteristics

Product name: POLYVEST® 110

|                                       |                    |
|---------------------------------------|--------------------|
| <b>Particle Size:</b>                 | Not applicable     |
| <b>Particle Size Distribution:</b>    | Not applicable     |
| <b>Dustiness:</b>                     | Not applicable     |
| <b>Specific surface area:</b>         | No data available. |
| <b>Surface charge/Zeta potential:</b> | No data available. |
| <b>Assessment:</b>                    | Not applicable     |
| <b>Shape:</b>                         | Not applicable     |
| <b>Crystallinity:</b>                 | Not applicable     |
| <b>Surface treatment:</b>             | Not applicable     |

## 9.2 Other information

|                                      |                                                                                                                       |
|--------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Explosive properties:</b>         | Not explosive                                                                                                         |
| <b>Oxidizing properties:</b>         | The substance or mixture is not classified as oxidizing.                                                              |
| <b>Pyrophoric properties:</b>        | The substance or mixture is not classified as pyrophoric. The substance or mixture is not classified as self heating. |
| <b>Formation of Flammable Gases:</b> | Substance or mixture, which in contact with water, does not emit flammable gas                                        |
| <b>Peroxides:</b>                    | Substance or mixture is not a peroxide but forms peroxides.                                                           |
| <b>Metal Corrosion:</b>              | Not corrosive to metals                                                                                               |
| <b>Evaporation Rate:</b>             | No data available. Not required by safety or application considerations.                                              |

## SECTION 10: Stability and reactivity

|                                                 |                                                                            |
|-------------------------------------------------|----------------------------------------------------------------------------|
| <b>10.1 Reactivity:</b>                         | Under normal conditions: stable.                                           |
| <b>10.2 Chemical Stability:</b>                 | Stable under recommended storage conditions.                               |
| <b>10.3 Possibility of hazardous reactions:</b> | Autoignition may occur with cotton waste or similar combustible materials. |
| <b>10.4 Conditions to avoid:</b>                | Extremes of temperature and direct sunlight.                               |
| <b>10.5 Incompatible Materials:</b>             | Oxygen                                                                     |
| <b>10.6 Hazardous Decomposition Products:</b>   | carbon monoxide, carbon dioxide                                            |

## SECTION 11: Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### Information on likely routes of exposure

|                      |                                         |
|----------------------|-----------------------------------------|
| <b>Inhalation:</b>   | Information on effects are given below. |
| <b>Skin Contact:</b> | Information on effects are given below. |
| <b>Eye contact:</b>  | Information on effects are given below. |

---

**Product name: POLYVEST® 110**

---

**Ingestion:** Information on effects are given below.

**Acute toxicity (list all possible routes of exposure)**

**Oral**

**Product:** LD 50, Rat, > 2.275 mg/kg, Not toxic after single exposure, Based on available data, the classification criteria are not met.

**Dermal**

**Product:** Not classified for acute toxicity based on available data.

**Inhalation**

**Product:** Not classified for acute toxicity based on available data.

**Repeated dose toxicity**

**Product:** No data available.

**Skin Corrosion/Irritation**

**Product:** Slightly irritating., OECD 404, (Rabbit), Slightly irritating., Based on available data, the classification criteria are not met.

**Serious Eye Damage/Eye Irritation**

**Product:** Not irritating, OECD 405, Rabbit, Not irritating, Based on available data, the classification criteria are not met.

**Respiratory or Skin Sensitization**

**Product:** Magnussona i Kligmana., Did not cause sensitisation on laboratory animals., Based on available data, the classification criteria are not met.

**Carcinogenicity**

**Product:** The carcinogenic effect of the substance has not yet been determined in a long-term animal study. The substance is not genotoxic. Generally speaking, carcinogenic substance are genotoxic. Therefore, this type of carcinogenic effect can be considered improbable for this substance.

**Germ Cell Mutagenicity**

Not classified

**In vitro**

**Product:** Ames test, OECD 471: , no evidence of mutagenic effects, Based on available data, the classification criteria are not met.

**In vivo**

**Product:** No data available.

**Reproductive toxicity**

**Product:** No data available.

**Specific Target Organ Toxicity - Single Exposure**

**Product:** No data available.

**Specific Target Organ Toxicity - Repeated Exposure**

**Product:** No data available.

**Aspiration Hazard**

**Product:** Not classified Based on available data, the classification criteria are not met.

**Product name: POLYVEST® 110**

---

**11.2 Information on other hazards****Endocrine disrupting properties**

**Product:** The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.;

**Other information**

**Product:** The properties of this product which are hazardous to health have been calculated as per regulation (EC) No. 1272/2008. See section 2 "Hazards Identification".;

|                                           |
|-------------------------------------------|
| <b>SECTION 12: Ecological information</b> |
|-------------------------------------------|

**12.1 Toxicity:****Acute hazards to the aquatic environment:****Fish**

**Product:** Cyprinus carpio, 96 h, In the range of water solubility not toxic under test conditions.

**Aquatic Invertebrates**

**Product:** Daphnia magna, 48 h, In the range of water solubility not toxic under test conditions.

**Toxicity to Aquatic Plants**

**Product:** No data available.

**Toxicity to microorganisms**

**Product:** No data available.

**Chronic hazards to the aquatic environment:****Fish**

**Product:** No data available.

**Aquatic Invertebrates**

**Product:** No data available.

**Toxicity to Aquatic Plants**

**Product:** No data available.

**Toxicity to microorganisms**

**Product:** No data available.

**12.2 Persistence and Degradability****Biodegradation**

**Product:** 10 %, Not readily degradable.

**12.3 Bioaccumulative potential**

**Product name: POLYVEST® 110****Bioconcentration Factor (BCF)****Product:** No data available.**Partition Coefficient n-octanol / water (log Kow)****Product:** Not determined. Not required by safety or application considerations.**12.4 Mobility in soil:****Product** No data available.**12.5 Results of PBT and vPvB assessment:****Product** A PBT/vPvB evaluation is not available, since a chemical safety evaluation is not required / has not been carried out.**12.6 Endocrine disrupting properties:****Product:** The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.**12.7 Other adverse effects:****Other hazards****Product:** No further information available**SECTION 13: Disposal considerations****13.1 Waste treatment methods****General information:** No data available.**Disposal methods:** With respect to local regulations, e.g. dispose of to suitable waste incineration plant. No waste key number as per the European Waste Types List can be assigned to this product, since such classification is based on the (as yet undetermined) use to which the product is put by the consumer. The waste key number must be determined as per the European Waste Types List (decision on EU Waste Types List 2000/532/EC) in cooperation with the disposal firm / producing firm / official authority.**Contaminated Packaging:** No data available.**SECTION 14: Transport information****14.1 UN/ID No.**

Not regulated as a dangerous good

**14.2 UN proper shipping name**

Not regulated as a dangerous good

**14.3 Transport hazard class(es)**

Not regulated as a dangerous good

**Product name: POLYVEST® 110**

#### 14.4 Packing group

Not regulated as a dangerous good

#### 14.5 Environmental hazards

Not regulated as a dangerous good

#### 14.6 Special precautions for user

Not applicable

#### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

### SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

##### EU Regulations

**EU. Regulation 2019/1021/EU on persistent organic pollutants (POPs) (recast), as amended:** None present or none present in regulated quantities (on the basis of current knowledge of the product composition).

**Regulation (EC) No. 1907/2006 Annex XVII Substances subject to restriction on marketing and use:** None present or none present in regulated quantities (on the basis of current knowledge of the product composition).

**EU. Directive 2012/18/EU (SEVESO III) on major accident hazards involving dangerous substances, Annex I:** Not applicable

**15.2 Chemical safety assessment:** No Chemical Safety Assessment has been carried out.  
**Inventory Status:**

|                                          |                                        |                                                                                                  |
|------------------------------------------|----------------------------------------|--------------------------------------------------------------------------------------------------|
| Australia AICS:                          | On or in compliance with the inventory |                                                                                                  |
| Canada DSL Inventory List:               | On or in compliance with the inventory |                                                                                                  |
| China Inv. Existing Chemical Substances: | On or in compliance with the inventory |                                                                                                  |
| Japan (ENCS) List:                       | On or in compliance with the inventory |                                                                                                  |
| Korea Existing Chemicals Inv. (KECI):    | On or in compliance with the inventory |                                                                                                  |
| New Zealand Inventory of Chemicals:      | On or in compliance with the inventory |                                                                                                  |
| Philippines PICCS:                       | On or in compliance with the inventory |                                                                                                  |
| Taiwan Chemical Substance Inventory:     | On or in compliance with the inventory | Pre-registration is requested for specific importer.                                             |
| US TSCA Inventory:                       | On or in compliance with the inventory | Commercial Status: Active                                                                        |
| EINECS, ELINCS or NLP:                   | On or in compliance with the inventory | EU-REACH compliant for Evonik Operations GmbH and its affiliates as EU manufacturer/EU importer. |

#### International regulations

##### Montreal protocol

Not applicable

##### Stockholm convention

Not applicable

**Product name: POLYVEST® 110**

**Rotterdam convention**

Not applicable

**Kyoto protocol**

Not applicable

**SECTION 16: Other information**

**Abbreviations and acronyms:**

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways; ADR - Agreement concerning the International Carriage of Dangerous Goods by Road; AIIC - Australian Inventory of Industrial Chemicals; ASTM - American Society for the Testing of Materials; bw - Body weight; CLP - Classification Labelling Packaging Regulation; Regulation (EC) No 1272/2008; CMR - Carcinogen, Mutagen or Reproductive Toxicant; DIN - Standard of the German Institute for Standardisation; DSL - Domestic Substances List (Canada); ECHA - European Chemicals Agency; EC-Number - European Community number; ECx - Concentration associated with x% response; EIGA - European Industrial Gases Association; ELx - Loading rate associated with x% response; EmS - Emergency Schedule; ENCS - Existing and New Chemical Substances (Japan); ErCx - Concentration associated with x% growth rate response; GHS - Globally Harmonized System; GLP - Good Laboratory Practice; IARC - International Agency for Research on Cancer; IATA - International Air Transport Association; IBC - International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk; IC50 - Half maximal inhibitory concentration; ICAO - International Civil Aviation Organization; IECSC - Inventory of Existing Chemical Substances in China; IMDG - International Maritime Dangerous Goods; IMO - International Maritime Organization; ISHL - Industrial Safety and Health Law (Japan); ISO - International Organisation for Standardization; KECI - Korea Existing Chemicals Inventory; LC50 - Lethal Concentration to 50 % of a test population; LD50 - Lethal Dose to 50% of a test population (Median Lethal Dose); MARPOL - International Convention for the Prevention of Pollution from Ships; n.o.s. - Not Otherwise Specified; NO(A)EC - No Observed (Adverse) Effect Concentration; NO(A)EL - No Observed (Adverse) Effect Level; NOELR - No Observable Effect Loading Rate; NZIoC - New Zealand Inventory of Chemicals; OECD - Organization for Economic Co-operation and Development; OPPTS - Office of Chemical Safety and Pollution Prevention; PBT - Persistent, Bioaccumulative and Toxic substance; PICCS - Philippines Inventory of Chemicals and Chemical Substances; (Q)SAR - (Quantitative) Structure Activity Relationship; REACH - Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals; RID - Regulations concerning the International Carriage of Dangerous Goods by Rail; SADT - Self-Accelerating Decomposition Temperature; SDS - Safety Data Sheet; SVHC - substance of very high concern; TCSI - Taiwan Chemical Substance Inventory; TECI - Thailand Existing Chemicals Inventory; TRGS - Technical Rule for Hazardous Substances; TSCA - Toxic Substances Control Act (United States); UN - United Nations; vPvB - Very Persistent and Very Bioaccumulative

**Key literature references and sources for data:** No data available.

**Training information:** No data available.

**Revision Information** Changes since the last version are highlighted in the margin. This version replaces all previous versions.
